

# 'Before' Strategy: Anticipating the text Template

Together with your child, see if you can brainstorm a number of statements about key concepts in the book. Just keep them short. Your son/daughter can then choose to agree or disagree. Be sure to ask, "Why do you agree or disagree?" (see some examples for different subjects on page 2). Don't forget to look at this sheet **afterwards** and chat about responses.

## Mathematics

Before Agree/Disagree	Statement/Question	After Agree/Disagree
	<p><b>1.</b> A square with sides of 4 metres long will also have a diagonal of 4 metres.</p>	
	<p><b>2.</b> An equilateral triangle and a square are both regular polygons.</p>	
	<p><b>3.</b> All the diagonals in a regular polygon are the same length.</p>	

## Health and Physical Education

Before Agree/Disagree	Statement/Question	After Agree/Disagree
	<p><b>1.</b> To be healthy you only need to do aerobic activities.</p>	
	<p><b>2.</b> Muscle building activities should be only done one day a week.</p>	
	<p><b>3.</b> Walking the dog would be considered moderate activity.</p>
